<language>cacheAutodesk . Navigation keys can be replaced by customization and other keystrokes. For example, while navigating to the below location: C:\Users<username>\AppData\Roaming\Autodesk<product folder>\My Products\SketchUp\X41\mykeystrokes.txt Based on the type of product, these can be further modified. This is a guide only. Refer to official Autodesk documentation for other details.

1. Navigate to \Users<username>\AppData\Roaming\Autodesk<product folder>\My Products\SketchUp\X41.
2. Drag and drop the file into the same location.
3. Rename the file to mykeystrokes.txt or customize the file name.
4. Open the mykeystrokes.txt file.
5. Search for: --\Autodesk\SketchUp\ \.Materials\ \.Materials.scpt
6. Create a custom keystroke with your preferred keystroke or by searching for the values that you want to use in the keystrokes.txt file.
7. For example, search for: 'R' \ 'color' \ '\.ColorPicker.scpt' "'X' \.ColorPicker.scpt' "'Y' \.ColorPicker.scpt'
8. Modify the values based on the color that you want. For example, for Blue:
9. Replace the value for the last keystroke with your custom keystroke. For example:
10. Save the file.

Once you have your preferred keystroke, it will appear as a command button that will open the color picker. Navigate to the following location: C:\Users<username>\AppData\Roaming\Autodesk<product folder>\Sketch

December 15, 2020 - All Autodesk 2017 and later software runs on Windows 10. Many 2016 products can run on Windows 10 with the Service app. Autodesk.
