
Zaxwerks 3D Invigorator PRO 8.6.0 For AE Win

Category: Animation software
Q: Cannot link to external and internal JavaScript resources in Webpack How can I link to external and internal scripts in Webpack? Is there any configuration I missed? Here is my code sample

```
resolve: { extensions: ['.js'], alias: { '@': path.resolve(__dirname + '/app'), 'vendor': path.resolve(__dirname + '/app/node_modules/'), 'client': path.resolve(__dirname + '/app/client') }, modules: [ path.resolve(__dirname + '/app/node_modules/redux'), path.resolve(__dirname + '/app/node_modules/react-redux'), path.resolve(__dirname + '/app/node_modules/react-router'), path.resolve(__dirname + '/app/node_modules/axios'), path.resolve(__dirname + '/app/node_modules/markdown-it/lib/md_it.js'), path.resolve(__dirname + '/app/node_modules/crossroads/build/main.js'), path.resolve(__dirname + '/app/node_modules/lodash'), path.resolve(__dirname + '/app/node_modules/react-dom/lib/core/ReactVersion.js'), path.resolve(__dirname + '/app/node_modules/react-dom/lib/core/ReactBrowserEventEmitter.js'), path.resolve(__dirname + '/app/node_modules/lodash/dist/lodash.js'), path.resolve(__dirname + '/app/node_modules/n
```
