This patch addresses the following known issues: An issue where the end mission fails when entering the Batman's Island. Check for glitches for Batman: Arkham Asylum in the patchnotes that have been added to the official Bat-sites. Oct 27, 2552 BE Reports from the forums and my own experience suggest a problem relating to loading the save game. I've tried to solve the problem but with no success. Apr 23, 2556 BE Has anyone else had problems with the Arkham City trainer and the grappling glitch? Seems like I am unable to use the grapple "desire" glitch. Sep 27, 2552 BE I can go through the cut-scene glitch, but when it comes to the actual fight, the game seems to freeze. Jul 15, 2570 BE Is the Batman: Arkham Asylum back to normal now? The glitches are still there, but the game appears to be running smoothly. Update (29 October 2015): Bugfix patch 1.02 for Batman: Arkham Asylum has been released and can be installed right now. This patch addresses the following known issues: Updated CRACKFIX 2-TL [fix for save.glide.glide kick.grapple] Update (10/14/2016) - Two new glitches have been discovered that work in the same fashion as the Grappling Glitch. Update (1/22/2017) - New glitch discovered for using your grapple to teleport to certain locations. When Batman/Batman: Arkham City/Batman: Arkham Origins/Batman: Arkham Asylum/Batman: Arkham City Armored Edition/Batman: Arkham City Blackgate is played, the Blackgate game is active. The Blackgate game is the solo version of Arkham City and is activated upon selecting "Play Single Player" in the main menu. Batman: Arkham City Trainer lets you know when you are in Blackgate. Now that the Blackgate game is activated, the Grappling Glitch will still work when the Prison doors are closed. This is because the Blackgate Jail becomes active. Batman: Arkham City Trainer lets you know when you are in Blackgate. The Grappling Glitch now works when the Blackgate Jail becomes active. Also, using a hold-down to shoot the gun or the Line Launcher will now work. Once the Blackgate Jail becomes active.
