I downloaded the file to my desktop and then right clicked and selected extract which in windoes called 7zip. My 3dmgame.dll file is named MetalGearSolidVPhantomPain\_Mod.zip.zip. I couldn't install the download as it told me 3dmgame.dll missing, and it said this installation may not be complete. Getting this message in the end is the reason i got sent to the 3dmgame.dll download page and was wondering if there was a way to fix this. I mean its not a part of game by it self and i got 2x the files. thanks for the help. I have a Sony Vaio VGN-FZ280/B bought in Dec 2010 with a AMD HD6320 processor and a Radeon HD 7500M driver installed on the laptop.
