Rails4 Ajax request to admin panel not allowed My own application works fine in a local environment using: But when I deploy it on my server, I get a 406 error page. I read that it might be that the request is blocked by the admin panel (based on this answer). So I added a setting in my config/application.rb file:  
config.action\_dispatch.allow\_forgery\_protection = false But this didn't change anything. Is there any other way to tell Rails to allow AJAX requests to the admin panel? UPDATE Here is the log: Started GET "/admin/auth\_check?account=gutvisti"

Adult emergence rates for diapausing *Drosophila simulans* (Diptera: Drosophilidae). Emergence times for adult flies from the facultative diapause in *Drosophila simulans* were measured at a temperature of 15 degrees C. Relative diapause strength was also examined. The critical thermal minimum (CTM) was approximately 13.5 degrees C; the optimal developmental temperature was approximately 27.5 degrees C; and the presence of sufficient food was required for embryos to complete development. These results are compared with the developmental characteristics of diapause in other species.

“Let's be honest: I am a sex offender. Now, as I am addressing you tonight, I am an extremely lonely sex offender,” he said, in part. “I am also a reformed felon. And that is something I am very proud of, for which I am grateful to the wonderful men and women of law enforcement, to the courts of the United States. And I am here tonight because I want to serve my country, because I am committed to public

---

service.” But he also added, “It is not every day that someone gets to be president.” When George H.W. Bush first walked into the ballroom at the 1985 Gridiron Dinner in Washington, D.C., the news of his cowlick and his long legs set him apart. George W. Bush was among the first to approach the former president as he came in for pictures with the other attendees. “This is going to be a pretty low-key event,” Mr. Bush told an interviewer who asked him if the president would speak.
