All they need to do is to create a new theme or skin for your PC. However, it is not that easy as you think. Sometimes, you may need to change the look and feel of your computer but with a cheap solution. Once that happens you lose a lot of the functions that you have on your PC. Fortunately, you can use a program called Themes Folder to change the look of your PC. The program allows you to customize the look and feel of your computer and make it just as you like. What's more, the program is easy to install and use and it only requires a few steps. So before we move on to the installation process. Let's take a look at its features. **Features** There are a lot of Themes Folder features and one of them is the ability to change your look and feel of your PC easily. You can change the background, the color scheme, the fonts, and even the look of the windows. You can have it so that everything looks neat, classy and cool. You can also
